

NOVA : 1,700 KILOMETERS IN KENYA

The Austrian manufacturer Nova, would like to congratulate their team pilot Rinaldo Vuerich, for his winter flying exploits in Kenya.

From the take off at Kerio View on the edge of the Rift Valley, the Italian has flown a total of 1,762 kilometers over the last two weeks. On his Mentor 3, he has flown 6 triangles of more than 200 kilometers each.

Rinaldo sent us several photos to warm the hearts of the pilots back in Europe...

You can catch up with the Italian's exploits on the XContest international XC league site:

Italy
 Type d'aile: NOVA Mentor 3
